## PROFESSIONAL SUMMARY

---

Results-driven Full-Stack Developer with 2+ years of hands-on experience building scalable, high-performance web applications using React.js, Node.js, Express.js, Laravel, and MySQL/MongoDB. Proven ability to deliver end-to-end solutions, optimize performance, and translate business requirements into user-centric products. Strong in clean code, REST APIs, and modern frontend practices.

## TECHNICAL SKILLS

---

- **Frontend:** React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap
- **Backend:** Node.js, Express.js, PHP (Laravel, CodeIgniter)
- **Databases:** MySQL, MongoDB
- **APIs & Tools:** REST APIs, Git, GitHub, Postman
- **Deployment:** Vercel, VPS, Cloudflare

## EXPERIENCE

---

### TechHomage Technologies

Junior Full-Stack Developer

Oct 2023 - Present

- Built and maintained production-grade full-stack web applications using React.js, Node.js, Express.js, Laravel, and MySQL/MongoDB.
- Delivered features end-to-end across ERP-CRM, fintech, e-commerce, and food-tech products.
- Improved application performance through API, database, and frontend optimizations (20-30% gains).
- Developed reusable, responsive UI components with React.js and Tailwind CSS.
- Worked in an agile, Git-based team environment with developers and clients.

### TechHomage Technologies

Full-Stack Web Developer Intern

Apr 2023 - Jul 2023

- Assisted in developing responsive user interfaces using React.js and JavaScript for live client projects.
- Integrated REST APIs with frontend components and improved UI performance.
- Collaborated in an agile development environment, supporting bug fixes and feature enhancements.

## KEY PROJECTS

---

### ERP-CRM Platform

React.js | Laravel | MySQL | REST APIs | Google Maps API

- Built a full-scale ERP-CRM system supporting Sales, Operations, Production, and Warehouse modules.
- Developed dynamic dashboards for lead management, inventory tracking, and production planning.
- Integrated Google Maps API for real-time field staff tracking with 2-minute update intervals.

### Cloud Kitchen Platform

Node.js | Express.js | MySQL | PWA | Payment & WhatsApp Business API

- Built and scaled an online food ordering platform handling 1K-2K daily orders.
- Integrated Easebuzz Payment Gateway and WhatsApp Business API, improving payment success rates.
- Deployed on VPS and helped scale to 80K+ successful orders within 4 months.
- Implemented PWA features for fast load times and app-like mobile experience.

### Online Coding Platform

React.js | Node.js | Express.js | MySQL

- Built an interactive coding practice platform with DSA-focused problems organized by topic and difficulty levels.
- Implemented an in-browser code editor supporting multiple languages with custom input, sample test cases, and execution output.
- Developed backend services for code submission, automated test case evaluation, and verdict generation (pass/fail).
- Added user progress tracking, solved problem history, and performance statistics.
- Implemented discussion threads and assessments to enable peer learning and continuous practice.

## KEY PROJECTS

---

### E-Commerce Platform (Software & Hardware)

Laravel | MySQL | Razorpay | PWA | Bootstrap

- Developed a full-featured e-commerce platform with product catalog, shopping cart, checkout, and order management.
- Implemented secure authentication, role-based admin access, and workflow automation for orders and payments.
- Integrated Razorpay payment gateway with transaction verification, error handling, and secure online payments.
- Built a responsive PWA-based UI for seamless user experience across devices.
- Optimized backend queries and application flow to ensure scalability and high performance under load.

## EDUCATION

---

### Master of Computer Applications (MCA)

2024 – 2026

*Jay Bhavani Institute of Management, Badnapur*

### Bachelor of Computer Applications (BCA)

2020 – 2023

*MIT N4 CIDCO, Chh. Sambhaji Nagar*
