

INVESTEU PORTAL

CONNECTING INVESTORS
AND PROMOTERS

The **InvestEU Portal**¹ is bringing together investors and companies promoting European projects.

InvestEU Portal KEY FACTS

Benefits for STEP Seal and Seal of Excellence projects:

- **One-stop-shop** for European projects
- **Increased visibility** to a large network of international investors
- **Easily identifiable** for investors through a special label on the InvestEU Portal
- **Networking opportunities** through different promotion channels, promotional videos and matchmaking events
- **Presentation** of projects in a harmonised format
- **Streamlined** review process

Project eligibility CRITERIA

To be eligible for a publication on the InvestEU Portal, a project must:

- Have a minimum total project cost of EUR 500.000
- Be in one of the pre-determined high economic value-added sectors
- Be situated in one of the Member States of the European Union, Norway or Iceland and be promoted by a public or private legal entity
- Have commenced or be expected to start within three years of the date of submission
- Be clearly described as an investment project
- Be compatible with all applicable EU and national laws

#InvestEU

European
Commission

¹ In the scope of the new InvestEU programme, projects that meet the requirements will be transmitted to the Implementing Partners who will then examine the projects falling within their geographical or activity scope. In addition, where an advisory initiative exists, projects will be transferred to the InvestEU Advisory Hub for advisory support and technical assistance. The InvestEU Portal is a facilitator, funding cannot be guaranteed for any submitted project. At the same time, submitting a project does not impose any legal obligations, in the context of the InvestEU Portal, on the person-submitting the project. Submissions to the InvestEU Portal will not be treated as applications for financing under any EU/EIB instruments. Publication of a project can be denied on legal, reputational or other grounds.

The Portal offers a pipeline of investible projects and thus is a **one-stop-shop for European projects** in various economic sectors.
